

Welcome to the Black Sheep.

Don't be fooled by the ambiguous name that projects your imagination In a Northern European restaurant, the black sheep is an Italian restaurant with a special concept to discover. Black Sheep indicates a non-ordinary concept, in respect of the tradition You can taste the food of traditional Italian cuisine, or listen to our live bands, or just drink a beer and play billiards in our back bar. We serve free Aperitif at the lounge bar every day in the afternoon until seven during happy hour.

All the ingredients are meticulously checked and selected every day to give freshness and quality. We do not prepare a refined cuisine and absolutely no fusion because I want to respect the flavor of the origins of my land and the land where I live now. Sometimes I make a small turnaround to give my best, but always respecting the work done by Mother Nature, without changing the original flavors too much. In our menu we have Italian and regional national dishes.

I come from southern Italy where I grew up In a valley in the mountains near the sea in the Cilento and Vallo di Diano National Park. <http://www.discovercilento.com/> . My first contact with Asia was back in 1994 when I arrived here in Jakarta to teach the art of Neapolitan pizza with a wood oven, today after working around Southeast Asia I have decide to put into practice what I learned. I am the sheep that wants to stand out from the flock! Respect for recipes without too much manipulation of the ingredients.

Close your eyes and listen to the vibrations of the Black Sheep through your senses.

Enjoy your meal!

Chef Michele Cuozzo
